以 科 技 丈 量 天 地

VOLANT SKYLAR

沃兰特 | 天行

天行Skylar(VE25-100型复合翼eVTOL),是沃兰特“三型三代”规划的首款产品,可应用于**商用客运、旅游观光、公共服务、航空物流**等低空经济全应用场景,是目前世界范围内已知的商载重量最大,座舱空间最宽阔的eVTOL,不仅先后完成中国首次有人驾驶首飞与有人驾驶转换飞行,也是行业内首批斩获头部客户确认订单的eVTOL机型之一。

Volant Skylar (VE25-100 Composite Wing eVTOL) is the all-new upcoming product derived from the "Three Types and Three Generations" plan recently announced by VOLANT, a leading eVTOL company. Volant Skylar can be fully configured for multi-scenario usage, such as commercial passenger transport, tourist and sightseeing flights, Public Service, and Logistics Transportation. It is currently the world's largest eVTOL by cabin capacity. It has not only successfully completed China's first piloted flight and piloted transition flight, but also stands as one of the first eVTOL models in the industry to secure confirmed orders from leading customers.

中国高等级客运eVTOL——天行

Chinese High-lever passenger-grade eVTOL——Skylar

安全

- 遵循并满足严苛的适航标准
- 安全等级10⁻⁸

SAFE:
Rigorously tested and proven with the highest airworthiness standards
Safety level 10⁻⁸

皮实

- 全天候、多气象条件
- 派遣可能性99.8%

DURABLE:
All-weather capabilities with over 99.8% reliability uptime

好用

- 多应用场景、多用途
- 5分钟、20公里、60元/座

VERSATILE:
Highly configurable for multiple scenarios and use cases
20 km range in 5 minutes, cost 60RMB

6 SEATS 座位
16.0 m WINGSPAN 翼展
9.5 m LENGTH 机身长度
2500 kg MTOW 最大起飞重量
500 kg PAYLOAD 商载
235 km/h CRUISE SPEED 巡航速度
200-400 km RANGE 航程
